

1 Evaluation Report

In the following report, you will gain a short overview over the results from the evaluation of course '**Relational Autonomy**' given by **Sandra Schmidt**. For the survey, the **standard SET.UP questionnaire** was used. The lecturer was able to alter the questionnaire regarding his/her learning methods and aims in advance. The short evaluation report only contains some of the aspects, which have been defined by the Zentrum für Qualitätsentwicklung in Lehre und Studium. 3 students have participated in the survey. That means the evaluation of the results is based on **3 student opinions**.
